

EltaMD® So Silky Hand Crème

Product Information

12-hour, oil-free moisturizer

- Enhances skin luminosity against urban pollution
- Brightens the appearance of skin tone
- Reduces the appearance of skin discolorations

EltaMD® So Silky Hand Crème is clinically proven to moisturize dry, flaky skin up to 12 hours. So Silky helps maintain moisture, even after handwashing. Powerful ceramides, gentle emollients and antioxidant vitamin E nourish and revive dry, rough hands.

So Silky uses sclareolide, a plant-derived ingredient that helps improve the appearance of skin discoloration. This luxurious crème enhances skin luminosity against urban pollution. Oil-free and non-sticky, it absorbs quickly and keeps hands feeling silky soft. It is fragrance-free and suitable for sensitive skin.

Label uses	Clinically proven to moisturize dry, flaky skin up to 12 hours while brightening the appearance of skin tone and reducing the appearance of skin discolorations.
Directions	Apply to hands and massage well. For best results, use regularly.
