

EltaMD® UV Elements Broad-Spectrum SPF 44

Water-Resistant (40 minutes)

Moisturizing facial sunscreen for all skin types and post-procedure skin

Multi-tasking, mineral sunscreen resists skin-aging environmental elements.

- Chemical-free UV filters provide gentle UVA/UVB protection
- Ultra-hydrating hyaluronic acid quenches dry and environmentally stressed skin to minimize the appearance of fine lines
- Antioxidant protection combats skin-aging free radicals¹

EltaMD® UV Elements Broad-Spectrum SPF 44 is a 100% physical sunscreen in a tinted, moisturizing base. It is gentle for even the most sensitive skin types, including post-procedure skin.

Its chemical-free actives, zinc oxide and titanium dioxide, provide safe but sure sun protection. These mineral-based UV filters work with ultra-hydrating hyaluronic acid to protect and hydrate the skin.

UV Elements has a universal tint that beautifully enhances most skin tones. Lightweight on the skin, it may be worn alone or under makeup and glides on for quick touch-ups. UV Elements is water-resistant (40 minutes).

EltaMD UV Elements is dye-free, fragrance-free, gluten-free, oil-free, paraben-free, sensitivity-free and noncomedogenic.

¹Antioxidant protection combats skin-aging free radicals associated with ultraviolet (UV) and infrared radiation (IR).

Universal Tint

Label uses	<ul style="list-style-type: none"> • Helps prevent sunburn • If used as directed with other sun protection measures (see Directions), decreases the risk of skin cancer and early skin aging caused by the sun
