

# EltaMD® UV Replenish Broad-Spectrum SPF 44

Water-Resistant (40 minutes)

## Moisturizing facial sunscreen for all skin types

- UVA/UVB protection
- Chemical-free active ingredients
- High volume of hydrating hyaluronic acid
- Oil-free formula with antioxidant protection

EltaMD® UV Replenish Broad-Spectrum SPF 44 is a 100% physical actives sunscreen that restores moisture to dry, stressed skin. Formulated with chemical-free active ingredients, it provides gentle yet powerful sun protection.

UV Replenish infuses the skin with hyaluronic acid that helps retain more than 1,000 times its weight in water within skin cells.

Antioxidant activity further works to combat skin-aging free radicals associated with ultraviolet (UV) and infrared radiation (IR). It offers high-energy visible (HEV) light protection.

This oil-free sunscreen feels weightless on the skin and is water-resistant (40 minutes). Ideal for daily and active wear, it may be used by all skin types and after treatments as directed by a skin care professional.

EltaMD UV Replenish is dye-free, fragrance-free, gluten-free\*, oil-free, paraben-free, sensitivity-free and noncomedogenic.

\*Contains no ingredient made from a gluten-containing grain (wheat, barley or rye).

*New! All-physical  
active ingredients*
